Human Relations Department
Second Spectrum
Los Angeles, CA

Dear Human Resources Recruiter,

My name is PinHo Wang and I am applying for the Software Engineer internship in 2019 summer. I am currently pursuing the master degree in Northeastern University majoring in Computer System Engineering.

As a Computer System Engineering student, I have the basic concept of algorithms and data structures. Then, I have developed Daycare System by using MVC design pattern and also familiar cooperate with team members in course projects. I have experienced developing image processing project by using Fast Fourier Transform algorithm and also implement Viterbi algorithm and Vector Quantization for speech recognition.

As a basketball player, I am fascinated by sports, particularly in basketball. I'd love to use my knowledge about programming to make a better sports experiences. It really makes me excited to work in Second Spectrum, because not only I can get to know more about the sports analytics industry but to have the opportunity to make sports play in higher levels.

As I know, Second Spectrum uses own camera system and is the Official Optical Tracking Provider of the NBA. As an interdisciplinary student in Optical Engineering, I believe I can make a strong contribute in Second Spectrum and I am excited to discuss more about the detail of the internship position with you. You can contact me by phone at (781)502-1681 or by email wang.pinh@husky.neu.edu. Thank you for your consideration.

Sincerely,

PinHo Wang
